RE: Letter of recommendation – Architect: Brendon Micheletti

Dear Sirs

I am an NHBRC registered building contractor having worked in the construction industry for the last 24 years, focusing mainly on the middle to upper end residential market. I first met Brendon during late 2015 as he requested from me a tender price for a new up market residence within a housing estate in which I have constructed many homes. Upon our first meeting I found Brendon to be enthusiastic and friendly. I was impressed with the amount of information he had issued to me including the level of detail, ensuring the prices generated were as accurate as possible.

Brendon and I have now worked on two homes within the same estate. On both the projects we worked on together he was appointed as the Principle Agent. Brendon clearly expressed the ability to generate positive design schemes within a difficult set of architectural guidelines and to get them approved within a relatively short period of time, ensuring the projects moved forward. Based on the level of information issued Brendon has a keen design and technical ability. Contract instructions issued were always easily understood and well documented. The issuing of payment certificates was always on time and budgetary items were dealt with in a professional manner. He clearly understood his role ensuring all the required documentation was completed, issued, acknowledged and implemented. His upbeat manner allowed all the parties to work well together and to effectively sort out any issues that came up during the construction process, with both projects being completed on time and within budget. Brendon is self-motivated, responsible and an agreeable individual.

I have no problem in recommending Brendon as an architect and wish him all the best.

Kind regards

*Kane Mitchell*
